

“Let your light shine”

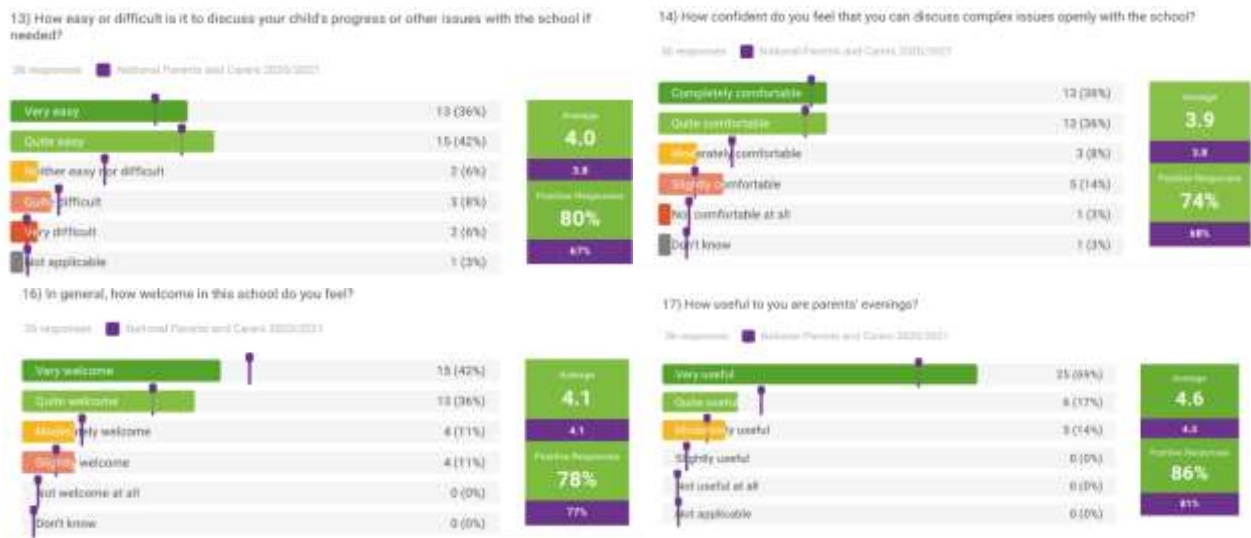

### Feedback 5 from Parent Engagement Survey

The responses overall to the following questions have a positive response and we hope that now school is starting to open up following covid, more of you will find it easier to respond with the top-confidence choice.

There were indeed several comments that acknowledged the difficulties due to the pandemic, which was appreciated, but we'd still like to think that we looked for different ways to maintain contact and to help you feel welcome.

Seesaw is generally the main source for this and although some of you do not like it, it really is an efficient means for the teacher, child and parent to communicate with one another so please do use it and if you are not getting the responses you need, please phone the school to ask that the teacher gets in touch with you. Following that, speak to Miss Geeson and she will investigate.
